FOKOUA PAUL EMMANUEL

Backend & Full-Stack Software Engineer

Douala, Cameroon | chipseremmanuel@gmail.com | +237 675 952 537
GitHub | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Software engineer with remote freelance, paid client delivery, and internship experience. Developed Node.js/Express APIs, OAuth authentication, dashboards, and Flutter features for a deployed vehicle services platform. Experienced with React, Next.js, MongoDB, Firebase, Python, Django, and Docker.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, PHP, SQL

Frontend & Mobile: React, Next.js, Vite, Tailwind CSS, Zustand, Flutter

Backend & APIs: Node.js, Express.js, Django, Laravel, REST APIs, OpenAPI, OAuth, Clerk, NextAuth.js

Data: MongoDB, Firebase, PostgreSQL, MySQL, Redis, Prisma, Drizzle ORM, Neon

Quality & DevOps: Git, GitHub, Vitest, Supertest, Docker, Docker Compose, CI/CD, GitHub Actions, Vercel, Render

AI: OpenAI API, LLMs, Retrieval-Augmented Generation (RAG), structured outputs

PROFESSIONAL EXPERIENCE

Backend Developer (Freelance) | GlitGo | Laurel, MD, USA (Remote) | Feb 2025 - Apr 2026

Company website: glitgo.com

Node.js | Express.js | MongoDB | Firebase | OAuth | Next.js | React | Flutter | Git | GitHub | Docker

- Developed and integrated backend APIs supporting user accounts, bookings, and notifications for a deployed vehicle services platform.
- Worked with MongoDB and Firebase, implemented OAuth authentication, and built dashboard functionality using Next.js and React.
- Contributed to Flutter mobile features; collaborated with designers and developers, reviewed code, fixed bugs, and supported post-launch maintenance.

Full-Stack Developer (Paid Client Project) | Candy Beauty | Remote | Mar - Apr 2024

Next.js 14 | TypeScript | Prisma | PostgreSQL | NextAuth.js | Stripe | Vercel

- Delivered an e-commerce storefront, user authentication, admin dashboard, product management, cart, orders, image uploads, and SEO.
- Integrated PostgreSQL with Prisma, configured Stripe Checkout in test mode, and deployed the application to Vercel.

Web Development Intern | VIM Solutions | Douala, Cameroon | Oct 2023 - Apr 2024

PHP | JavaScript | MySQL | Database Management

- Designed and implemented an online currency converter web application, applying PHP, JavaScript, MySQL, and database management.

SELECTED ENGINEERING PROJECTS

TalentOS | AI Recruitment Platform | Live Demo | GitHub

React 19 | Node.js | Express 5 | TypeScript | PostgreSQL | Drizzle ORM | Clerk | OpenAI API | Docker

- Built recruitment workflows with AI-assisted evaluation, REST APIs, OpenAPI, retrieval-assisted search, automated testing, CI, and Docker Compose.

Cameroon Tech Jobs | Jobs Platform | Live Demo | GitHub

Python | Django 5 | PostgreSQL | Celery | Redis | Stripe | PWA | Render

- Built an employer and job-seeker platform with job search, administrative workflows, background processing, and a mobile-friendly PWA.

Algorithmic Trading & Signal System | GitHub

Python | MetaTrader 5 | PostgreSQL | Docker

- Developed market-data integration, signals, entry/exit rules, risk controls, and Dockerized services.

EDUCATION

B.Tech, Software Engineering | 2025 - 2026 | IUGET (University of Bamenda affiliate), Cameroon

HND, Software Engineering | 2023 - 2025 | IUGET, Cameroon
